A machine has 100 candies and dispenses a candy when a lever is turned. The machine has the same number of blue, pink, yellow, and green candies all mixed together. Megan turned the lever and obtained a pink candy. Peter turned the lever next.

How likely is it that Peter will get a pink candy?

- (A) It is certain that his candy will be pink.
- (B) It is more likely than it was for Megan.
- (C) It is exactly as likely as it was for Megan.
- (D) It is less likely than it was for Megan.
